Girard Judge Cancels Sessions at Scene of Shooting

MAEBASHI, Japan (AP)—Two Japanese scrap metal pickers testified today at the trial of U. S. Army Specialist 3C William S. Girard that many Americans fired shell casings at them and "laughed and clapped their hands when we ran away."

The statements by Noburo Matsuzawa and Mon-ya Hoshino were among 30 affidavits filed by the prosecution at the second session of the trial that has created an international controversy.

They said U. S. soldiers often fired blanks, shell casings and phosphorus grenades at Japanese villagers who made their living selling used shell casings they picked up on the Camp Weir firing range north of Tokyo to sell as scrap metal.

Girard, of Ottawa, Ill., was charged with manslaughter after a shell casing fired from a grenade launcher attached to his rifle struck and killed Mrs. Naka Sakai, mother of six children.

Officer Compensation
The U. S. Army announced it offered Mrs. Sakai's bereaved husband a solatium (compensation) offer of \$1,748.20, but that he turned it down.

"I do not want to discuss money matters at this time," he said.

It has been the custom in U. S.-Japan relations in the past to offer payment of a solatium to individuals or the family in the event of injury or death through the action of a member of the U. S. forces.

The second session of the internationally-observed trial opened in Maebashi District Court under the direction of Judge Yuzo Kawachi and two associate judges, who will hand down the final decision in the case.

Adjourns Session
Kawachi adjourned today's session at 3:15 a. m. e. t. t., and cancelled two outdoor sessions scheduled for Saturday and Sunday at the scene of the shooting because of bad weather. He rescheduled them for Sept. 12, 13 and 14.

When the statements all were read to the court, Kawachi called Girard to the stand.

"During the reading of the documentary evidence," he asked, "did anything strike you as objectionable and would you like to ask any questions?"

"No," Girard replied and returned to his chair at the defendant's table. The defense, headed by Japanese attorney Itsuro Hayashi, also refused to question the affidavits.

New State Order Gives White County Board of Review Ticklish Tax Problem

CARMI, Ill. (Special)—The White County Board of Review has a ticklish tax problem, and the outcome hasn't been decided. They believe Gov. William G. Stratton may hold some of the cards.

The ten township assessors have been over the county and estimated true value of property to be \$3 million dollars less than last year's assessment. This cut is mainly in valuations of oil wells and oil property because of the dip in oil production during the past year.

Oil production is down a total of \$3,108,152. Other cuts related to oil production decrease include removal of one Texas Eastern Transmission plant in Norris City, which was valued at \$295,000. There was a \$137,000 reduction in valuation of the oil field supply companies, too, and the shutdown of the Southern Illinois Foundry Co. plus removal of the Wabash Furniture Corp. cut an additional \$45,000 from the county's 1956 evaluation of \$66,658,000.

Miss Betty Estes Reigns as Miss Illinois Rural Electric Co-Op of '57

SPRINGFIELD (AP)—Miss Betty Estes, 17, Grantsburg, reigned today as "Miss Illinois Rural Electric Co-Op of 1957."

She was crowned Thursday night in ceremonies climaxed the opening day of the 16th annual convention of the Association of Illinois Rural Electric Co-operatives here.

Some 400 delegates from the state's rural co-operatives assembled for the opening of the two-day meeting.

Earlier Thursday Charles B. Shuman, president of the American Farm Bureau Federation, warned the co-op delegates they will have to decide whether they want to operate their co-operatives as private enterprises or have them converted to public agencies.

"It is time to make a decision," he said. Shuman is a former president of the Illinois Agricultural Assn.

"It may be necessary to secure additional legislation to make certain that members can obtain full and complete member ownership and control of their co-operative as they retire their government loans," Shuman said.

The National Rural Electrification Administration should operate as a credit agency, not as a business manager for the co-operatives, Shuman warned.

F. J. Longmeyer, Greenville, is the association president.

Miss Betty Estes, newly crowned "Miss Illinois Rural Electric Co-Op of 1957," entered the state beauty contest after winning over twelve candidates for the title of "Miss SEIEC of 1957" at the annual meeting of the Southeastern Illinois Electric Co-op at its headquarters near Eldorado Aug. 19-20.

Miss Estes, 17-year-old daughter of Mr. and Mrs. Charles Estes of Grantsburg, Johnson county, will participate in the national REA Beauty Pageant at Dallas, Texas, Feb. 3-6.

She is a senior at the Vienna high school.

Miss Estes was accompanied to Springfield by Mrs. George Carr, home economist for the SEIEC.

The plan moves forward an estimated 300 families to leave the county, representing an accumulative valuation of \$450,000.

According to W. D. Morris, county treasurer, these cuts were bad enough, but also were indicative of the business slump in White County this year.

Morris said the Illinois Department of Revenue, just looking at the past record of climbing valuations in White County and dis-regarding the oil slump, ordered an \$8 million increase in White County evaluations. This jumped evaluations some 14 per cent over 1956 evaluations, or to \$74,353,000.

Morris said evaluations in White County are set at the maximum amount a person could get for the property on today's market. He said that for the past six years the tax has been levied at the rate per hundred dollars prescribed by law.

Now, according to Morris, the state is demanding that the true evaluation be multiplied by 1.14 to determine the tax evaluation.

Two Motorcycle Riders Fatally Injured at Marion

MARION, Ill. (AP)—Two motorcycle riders were injured fatally here Thursday when their cycle skidded under the wheels of a truck.

Those killed were Herman Dale Hanks, 20, Marion, who was driving the motorcycle, and Lois Watson, 18, Marion, who was riding on the motorcycle.

Coroner Adolph Fluck quoted witnesses as saying the eastbound truck driven by Vaughn Hall, Marion, was making a left turn into a bowling alley near the west city limits.

Hanks, who was going west on the motorcycle, applied the brakes and the cycle skidded 75 feet before going under the rear wheels of the truck.

Both victims died in Marion Memorial Hospital within nine hours after the accident. Hall was treated for shock, then dismissed. Fluck set an inquest for tonight.

Probe Report Blasts Clothing Sales to Army

WASHINGTON (AP)—The Army says it has tightened military buying practices but that getting responsible contractors who will live up to their obligations is "one of the most perplexing problems in military procurement of textiles."

Army Secretary Wilber M. Brucker made the statement after the Senate Permanent Investigating Subcommittee charged that a "nefarious group" of military clothing contractors sold the government substandard goods for "unconscionable" profits.

The subcommittee in a scathing report issued Thursday night called on the Justice Department to bring prosecution "against the individuals whose testimony or activities indicate criminal offenses."

The lawmakers questioned the activities of several quartermaster employees but reserved their severest criticism for Herman and Samuel Kravitz, two New York clothing operators.

The report said their activities in supplying military clothing were "amoral and contemptible, made more so by the fact that they were defrauding the military services during the time of war and death for American military men in Korea."

The subcommittee, headed by Sen. John L. McClellan (D-Ark.), made the statements in a 58-page report on its extensive investigation and testimony taken last year into military clothing contracts.

Chicago Police Seek Knifer

CHICAGO (AP)—Police searched the Chicago Loop today for a man who stabbed two women and a man on busy streets at mid-morning.

Five persons have been attacked this week by the apparently mad knifer and one, Lillian Mantyla, 37, was reported in serious condition.

The victims described their assailant as tall and slender, in need of a shave, and with a large, hooked nose. He wore a gray pullover sweater and gray cap, they said, and in every instance sneaked up behind his prey.

Each time he slashed, then disappeared into the crowd.

White School Board Members Resign at Colp

Negro President Denies Pressure in Case By NAACP

COLP, Ill. (AP)—The Negro president of the Colp grade school board said today the three white members who resigned Thursday night did not help solve the village's school problem by "quitting."

William Hatchett Jr., board president, said Raymond Romines, Wade Rowatt and Elmer Kerley, turned in their resignations to him with a letter charging NAACP "pressures in our internal affairs." Hatchett denied that the NAACP had exerted any pressure in the case.

Forty white grade school students at Colp are going to other schools, rather than attend the consolidated Negro-white school at Colp.

The school was consolidated earlier this year by a 4-3 vote, with the four Negro members voting for the consolidation and the three white members against.

White residents at Colp were permitted to detach from the Colp district and be annexed at Carterville, but the Negroes challenged the decision of the Williamson County board of school trustees and a court hearing is pending this month.

The three white board members said their resignation was "in protest to outside influences attempting to interfere in local policies and an attempt to misrepresent the Colp school situation as a scene of racial prejudice."

The three white members claimed that "sub-standard" facilities and not opposition to integration at Colp prompted them to move their children to other schools.

Hatchett said the three board members were ready to resign two other times, but that he had "talked them out of it."

"Our school district is going to lose \$9,000 a year by the white children leaving, but we are not going to desert our problem. We are going to go ahead and try to fulfill our dream of a better school," Hatchett said.

"We could lock our doors today and create a problem for some other community, but we don't intend to."

Off-Key Rendition

Miss Indiana Wins Miss America Talent Round with Hilarious Song

ATLANTIC CITY, N. J. (AP)—A church choir singer who is all mixed up geographically won Thursday night's talent round at the Miss America pageant with a hilarious, off-key rendition of "My Hero."

Gloria Ruth Rupprecht, 19, daughter of a Lutheran minister, entered the contest as Miss Indiana. But she was born in Chicago and lived in Winston-Salem, N. C. before moving with her father to St. Petersburg, Fla. two years ago.

Miss Rupprecht now attends Valparaiso University in Indiana, her stepping-off point to the state contest which she won.

She conceivably was the first contestant in history of the pageant to win a talent competition by singing off key. Her three-minute act

which earned her a \$1,000 scholarship was that of a scared young soprano making her theatrical debut singing "My Hero."

Miss Georgia — tall Judy Elizabeth Shattuck—20, was judged the finest among 17 swim suit competitors as she swept down the 120 foot runway in a white satin creation gold threaded about the bodice.

Miss Shattuck, 5-feet, 9-inches tall and 130 pounds, blue-eyed and blonde, had 37-24-38 measurements. She attended St. Lawrence University and the University of Georgia for one year each. She was born in Pittsburgh.

The two winners joined Miss Missouri and Miss Arizona as preliminary winners. They won the talent and swim suit competition respectively Wednesday night.

White House Meeting Saturday

U. S. to Speed Deliveries of Weapons to Middle East Nations

WASHINGTON (AP)—The United States today rushed plans to speed weapon deliveries to the Middle East as a bulwark against possible Syrian aggression with Soviet arms.

Officials said President Eisenhower gave a green light for rapid air delivery of "certain military items" to Jordan and faster delivery of weapons to Saudi Arabia, Iraq and perhaps other Middle Eastern countries.

Turkey, one of Syria's neighbors, is scheduled to receive initial delivery soon on an undisclosed number of American F100 Supersabre jet fighters.

The new American interest in increasing arms shipments to Arab states immediately raised the question of whether more arms would be shipped to Israel. Israeli Ambassador Abba Eban was expected to put the question before U. S. officials at a scheduled meeting next week.

Additional decisive steps to counter Moscow's stepped-up penetration of the Middle East could be increased.

Peithman Discusses Prehistoric Man At Historical Society Meeting

Sixty members and guests enjoyed the last field meeting of the Saline County Historical Society held at Mahoney park Tuesday evening, Sept. 3.

President Louis Aaron welcomed the guests and gave a brief explanation of the progress on the Lincoln bricks which are being made by the Albion Brick Kiln. He encouraged those present as well as other Southern Illinois citizens to write letters to William R. Allen, superintendent of Parks and Memorials, Springfield, urging that work be begun on the complete restoration of the Old State Bank Building and repairs made to the Posey Building in Shawneetown Memorial Park. Brochures of Saline county were discussed and

those present were informed that they could be secured from Mr. Aaron or William Farley.

Peithman Speaks

Prehistoric man was wandering the valleys, hills, and plains of this area of Southern Illinois ten thousand years ago was the opening statement of Irvin M. Peithman, speaker of the evening. Mr. Peithman, archeologist from Southern Illinois University, continued by stating that further studies, now being conducted, may push the date farther back in time. By beautiful color slides he strengthened his arguments by showing how step by step the archeologists are piecing together more and more of the story of these ancient peoples. From the early Hunting People to the Archaic Period, the Woodland Culture, the Hopewellian Culture, the Mississippian Culture he led his interested audience to the Culture of the Historic Indians.

He explained that the points found by the amateur archeologists were spear points and not arrow points as generally supposed. They, along with the stone axes found in many fields, belong to a more ancient civilization than the arrow points which were introduced by the Mississippians about one thousand years ago. He estimated the age of a beautiful black hematite

But Holds Firm To Stand for Segregation

Arkansas Governor Sends Reply to President Eisenhower

By United Press

Arkansas Gov. Orval Faubus replied to President Eisenhower today with a pledge to "cooperate" in upholding state and federal constitutions. But he apparently held firm to his stand for forced segregation in Little Rock high schools.

Faubus announced that he has ordered Arkansas state police to discuss with federal authorities "certain evidence" that led him to call out the National Guard to prevent integration at Little Rock's Central High School.

In Washington, Atty. Gen. Herbert Brownell Jr. today instructed the FBI to confer with Faubus' representatives to receive any information the governor cares to submit.

"I shall cooperate in upholding the Constitution of Arkansas and the nation," Faubus said in a telegram to Eisenhower.

The message was a reply to Eisenhower's stand Thursday asking Faubus to "cooperate" with the Federal Court which ordered integration in the Arkansas capital city. Eisenhower planned to confer with Atty. Gen. Herbert Brownell in Washington Saturday.

Constitutional Question
Faubus has maintained that he used troops in the Little Rock integration crisis because of threatened violence over the court-ordered admission of eight Negro pupils to the all-white school. The governor's action put the state and federal governments at direct odds and posed a constitutional question of which was sovereign over the other.

The Negro students failed to appear for classes again today and an uneasy peace settled over the Little Rock trouble area.

Only about 150 persons, about one-tenth the size of Thursday's crowd, assembled across the street from Central High School. National Guardsmen took one man, Murray Gallenson, 20, Minneapolis, Minn., into custody when they found a knife on him as he tried to push his way through the crowd as a reporter.

To Hold Hearing
It was assumed they, along with all parties concerned, had adopted a "wait-and-see" attitude, after federal Judge Ronald N. Davies said he would conduct a hearing Saturday on the school board's newest petition to his court.

Virgil T. Blossom, the harried superintendent of schools, joined five school board lawyers in signing the petition which asked Davies to "suspend integration temporarily" for "the good of all pupils."

The President, in the strongest stand he has taken on school integration, asked Faubus to "cooperate" with the U. S. District Court.

He pointedly reminded Faubus that the Arkansas National Guard, which the governor has used to defy the orders of a federal court, was "uniformed, armed and partially sustained" by the federal government.

Some observers in Washington considered this a veiled warning that the government could withdraw its support and recognition of the Arkansas guard, which last year alone received a federal cash subsidy of \$5,500,000.

The WASHINGTON MERRY-GO-ROUND

by DREW PEARSON

(Editor's Note: While Drew Pearson is touring the Mediterranean, his column is written by his junior partner.)

JACK ANDERSON Says: Asiatic Flu Scare Helps Drug Companies Sell Vaccine; Cole Arranges Benefits Before Taking Job; Halleck Lectures Like On Supreme Court.

WASHINGTON.—They refuse to be quoted, but some government doctors believe the Asiatic flu scare has been exaggerated to sell commercial vaccine. Six big drug companies are working triple shifts seven days a week to meet the tremendous demand for vaccine.

Meanwhile, the United Nations' medical chief in the Middle East, Dr. Pierre Du Page, has canceled orders for American vaccine on the grounds it won't be needed. He has told associates that Asiatic flu lessens in severity as it spreads, therefore the vaccine will be useless by the time it would arrive.

Dr. Du Page has probably handled more Asiatic flu cases than any single doctor. One day alone he reported 2,000 new cases at a refugee camp at Ba'Albek, Lebanon.

American doctors who have been testing the virus at Walter Reed Army hospital and the National Institutes of Health are divided in their opinions. They agree that the disease has been comparatively mild. It causes a miserable, but nonfatal, fever that lasts two or three days.

CAN PREVENT EPIDEMICS
Of 30,000 reported cases in this country, only six have ended in death. At least two of these, doctors found, were not caused by the Asiatic flu.

Some government medics agree with Dr. Du Page that the virus is losing its virulence, that the main effect of the new vaccine will be to boost the drug companies' profits.

Other doctors insist there is no way to forecast whether Asiatic flu will gain or lose virulence this winter. They point out the disease is highly contagious and usually hits 15 to 20 per cent of an infected community. The vaccine can prevent such epidemics, they say.

Six companies are licensed to produce the vaccine: Merck & Co.; Lederle Laboratories; Eli Lilly; Pitman-Moore; National Drug Company; and Parke Davis & Co.

The retail price ranges from \$6 to \$8 a vial, which contains enough vaccine for 10 doses. One dose should give immunity from four to six months.

COLE'S CAPERS
Congressman Sterling "Stubby" Cole (R., N. Y.) is taking care not to burn his bridges behind him when he leaves Congress to head the new International Atomic Energy Agency.

He has been nominated by President Eisenhower for the job but

still must be approved by the United Nations.

After Cole learned he might be the new world atomic energy czar, he slipped a rider into the law which authorizes American participation. His special sleeper would permit Americans to count their time with IAEA toward federal retirement benefits.

No other international agency offers Americans the same deal. Biggest beneficiary of the Cole rider would be Cole, himself, who has 22 years of congressional service behind him and doesn't want to lose out on any benefits.

Cole also wanted a promise from House GOP Leader Joe Martin to restore his seniority rights if he should come back to Congress after his term as IAEA head. This infuriated Congressman James Van Zandt (R., Pa.) who is second in seniority to Cole on the Congressional Atomic "Watchdog" committee. Van Zandt stomped into Martin's office and protested loudly.

MISSING DESKS
Cole has a reputation on Capitol Hill for nickel nursing. A few weeks ago, he did just about everything except call out the FBI to find two missing desks.

He claimed to have purchased them for his kids from surplus congressional stock. Surplus sales are always carefully recorded, but House Clerk Ralph Roberts could find no record that Cole ever paid his \$16.

"Stubby" wrote Roberts several blistering letters, insisting that he had paid the \$16 and demanding delivery of the desks. Roberts agreed to take Cole's word about the \$16, but couldn't locate the desks.

Finally Roberts offered him two other desks, which Cole grudgingly accepted.

Note: "Stubby" has also exercised his congressional privileges to get free work done at the House repair shop. A couple years ago, he ordered House carpenters to recondition an antique organ and antique cabinet for him.

NEWS NUGGETS

Tells off Ike — Indiana's curly-haired Congressman Charlie Halleck, No. 2 Republican in the House, scolded President Eisenhower and Attorney General Brownell for their faces the other day for appointing New Dealers to the Supreme Court. "The appointments you have made to the Supreme Court," snorted Halleck, "are worse than we had in the New Deal days." Ike listened tolerantly.

Enterprising Promoter — During Congress's closing hours, Sen. Warren Magnuson (D., Wash.) rushed through a \$2,200,000 appropriation for an American exhibit at Moscow's Gorki Park. This will be the first American display the Kremlin has permitted inside Russia. After the appropriation was approved, a New York promoter, Gottfried Neuberger, walked into Magnuson's office with a contract from the Russians authorizing him to stage the exhibit.

Miss Phyllis June Chenoweth and Willie E. Dutton Wed at Mt. Moriah

Mr. and Mrs. Willie E. Dutton
(Portrait by Ronnie's)

Miss Phyllis June Chenoweth, daughter of Mr. and Mrs. Henry Chenoweth, 1528 South McKinley, and Willie E. Dutton, son of Mr. and Mrs. Willie E. Dutton, were married in a candlelight service at the Mt. Moriah Methodist church at 8 o'clock on August 31.

The double-ring ceremony was performed by the Rev. George Jenkins before an altar decorated with palms and stately candelabras bearing tall glistening white tapers. On either side, large baskets held fragrant bouquets of gladioli and stock.

Mrs. Mildred Boicourt, the organist, played appropriate nuptial music and also accompanied Miss Dawan Martin as she sang Always, Whither Thou Goest, and The Lord's Prayer.

The matron of honor was Mrs. Norma Jenkins, sister of the bride. She wore a dress of aqua chiffon styled with a scooped neckline and a matching headband. Miss Peggy Partain, the bridesmaid, wore a dress of coral silk organza with a scooped neckline and full skirt. Miss Partain wore a matching headband and carried all coral flowers.

W. C. Dallas, brother-in-law of the bridegroom, acted as best man. The groomsmen were Gary Holland, Carrier Mills, who is a cousin of the bride.

The ushers were Donald Price, and Jack Jenkins.

The bride wore a waltz-length

gown of white chantilly lace. The gown boasted a full bouffant skirt and a scalloped neckline, trimmed flatteringly in seed pearls. Her finger-tip veil of illusion was made of white tulle with a crown of white miniature blossoms. The bridal bouquet was a cluster of white rose buds placed on a white pearl Bible. The bride was given in marriage by her father.

Mrs. Chenoweth, mother of the bride, wore a gray and white printed shantung dress with white accessories and a white corsage.

The bridegroom's mother wore a beige printed shantung sheath dress with black accessories and a pink corsage.

Following the ceremony, a reception was held in the lower rooms of the church. Those acting as hostesses were Mrs. Donald Price, Mrs. Donald Sims, Miss Aline Dutton, and Mrs. W. C. Dallas.

The newlyweds are now on their honeymoon touring the South. The couple will be at home to their friends Sept. 9 at 724 2nd Street, Mounds, Ill.

The bridegroom is employed as a Soil Conservationist aide at Mounds. The bride was formerly occupied as remittance clerk at the First National bank in Harrisburg. Both are graduates of the Harrisburg Township high school. The bridegroom graduated in 1951, and the bride graduated with the class of 1956.

W. W. Hunsaker, former pastor of the Shawneetown Baptist church, performed the double-ring ceremony in the presence of families and friends.

The bride was given in marriage by her father.

She wore a ballerina length wedding gown fashioned of white nylon lace and net, carried a white Bible, and wore seven pink rosebuds in a corsage.

Beverly Eloise Crane, cousin of the bride, from Akron, Ohio, attended her, and wore white roses in her corsage.

Wilbur Crane, Akron, Ohio, uncle of the bride, acted as best man.

The bride's mother wore her flowers in a corsage. It was styled of red carnations. The bridegroom's mother chose red carnations for her corsage, also. Miss Anna Jane Crane, an aunt, wore red carnations in her corsage.

Relax 7-Year Ban on Travel To Red Bulgaria

WASHINGTON (UP)—The United States has relaxed a seven year ban on American travel to Bulgaria and has approved a passport to that country for Avery Brundage, Chicago, president of the International Olympic Committee.

The State Department announced Thursday passports to Bulgaria also have been approved for two other IOC members, four members of California's committee for the 1960 Winter Olympics and one newsman. All will attend the IOC meeting at Sofia, Sept. 21-23.

The department also announced it will consider requests of Bulgarian reporters who wish to come to the United States. Such requests are subject to U. S. immigration laws which Secretary of State John Foster Dulles recently described as "severe."

The department statement apparently anticipated requests from Bulgarian reporters to cover the 1960 winter games at Squaw Valley, Calif.

Communist China is almost certain to seek entry to the winter games. The United States does not recognize Communist China but it is a member in good standing of the International Olympic Committee and therefore will be invited to take part in the Squaw Valley games.

If the Red Chinese athletes are not admitted to this country, the IOC—which tries to keep the Olympics free of politics and international squabbles—undoubtedly would move the 1960 winter games to another country.

Peithman Discusses Prehistoric Man

(Continued from Page One)

axe, brought by a guest, as being around seven thousand years old. He explained the use of the bola, the atlatl, and the banner stones used by prehistoric man. He traced the development of agriculture, art, and religion from their conception to the Historic Period. Many village sites, shelter bluffs, burying grounds, battlefields, along with existing pictographs and petroglyphs were located within a sixty miles radius.

To complete his studies of the Red Man Mr. Peithman is now engaged in studying modern Indians of America. He finds them to be agreeable friends possessing an abundance of humor. He has discovered that many legends and traditions common among the modern Indians have their beginnings in the distant past. To further his studies Mr. Peithman will leave in October to spend several months with the Seminoles in the Florida Everglades.

Thanks were extended to Mr. Peithman for his interesting and informative talk. Six new members were welcomed into the Society: Mrs. Bess Webber, Mrs. Golda Skelton, Mrs. Florence Hancock, Mrs. Madeline Holdaway, Floyd Johnson and Harold Skelton. The meeting was adjourned to meet October 8 at the Mitchell-Carnegie Library in Harrisburg.

Jap Witnesses Claim Shells Fired in Fun

(Continued from Page One)

Mich., who was with Girard when he fired the fatal shot, will be the first witness to appear during the Camp Weir sessions.

The two American Army officers in charge of the maneuvers on Jan. 30, the day Mrs. Sakai was shot, testified in affidavits that they ordered Girard and Nickel to guard a machine gun and some field jackets.

2nd Lt. William M. Mohon said he told Girard to keep the metal pickers away from Army equipment, but that he did not order him to fire cartridges from his grenade launcher.

Mohon said there were so many Japanese on the firing range that day he had to suspend use of live ammunition and that the soldiers used blanks during the afternoon session.

2nd Lt. William Gigante backed Mohon's statements.

Matsuzawa testified that it was not unusual for the servicemen to fire at the metal collectors.

"Sometimes they laughed and clapped their hands when we ran away," he said.

In no case, however, did the witnesses say there was malicious intent to hurt anyone. They also admitted that the Americans had gone out of their way to give metal scrap to women and children, sometimes pushing young men out of the way.

Lie Tests Clear Two of Connection With Slaying of Judith Anderson

CHICAGO (UP)—Police said today lie tests cleared two young men of any connection with the Judith Mae Andersen murder.

However, one was kept for questioning about other sex crimes in the city and the other was held as an escaped prisoner from Michigan.

The two, aged 25 and 30, were arrested Thursday in a suburban Melrose Park trailer camp. They denied any part in the crime, but police said they would be given lie detector tests today because of conflicts in their stories.

Authorities pressed their investigation of the pair when they found an old .38-caliber revolver in the home of one of the men. The gun has capacity for five shells and four of the chambers were empty.

Judith Mae had been shot four times in the head before her dismembered body was found floating in two oil drums in a Lake Michigan harbor.

Both men denied knowing the victim, but admitted they knew her girl friend, Linnea (Terry) Johnson, 15.

One lead in the case blew up Thursday night.

A 75-year-old retired railroad car repairman surrendered voluntarily and admitted ownership of three chisels found discarded in a park lagoon. The chisels were believed to have been the ones used to cut down the oil drums in which the girl's body was discovered.

But the man, object of an intensive manhunt, apparently was the victim of circumstances. He explained he threw the chisels into the lagoon "to get rid of them" after clearing trash from his basement.

Another apparent lead evaporated when a man arrested after boasting he killed Judith Mae sobered up and recanted.

The man, from Northport, Ala., told police he had spent several days with Judith Mae after her disappearance the night of Aug. 16. He said he killed the girl with an ax and knife and dumped her body into the harbor, where it was found about a week later.

"I cut up Judy and put her body on a rubbish pile," police quoted the man.

He was held overnight but not regarded as a suspect.

Master Check Forger Arrested

CLEVELAND (UP)—An alleged master check forger sought in 43 states over the past 11 years was arrested in a suburban motel Thursday.

Charles R. Speedie, 51, nicknamed "The Traveler" because of his habit of staying in one spot only briefly to run off a batch of bogus checks, was arrested in a gun-drawn raid on a tip furnished by Van Nuys, Calif., police.

He was believed to have cashed at least \$500,000 worth of forged checks in the past 11 years.

"It may have been a couple of million dollars," said Det. Sgt. D. R. Sheldon of the San Fernando Valley, Calif., police.

50 Rebels, 13 Gov't Soldiers Killed in Uprising in Cuba

HAVANA, Cuba (UP)—Fifty rebels and 13 government soldiers were killed in the short-lived uprising Thursday in the south coast port city of Cienfuegos, a government communique announced today.

In addition, 13 persons were wounded, but the communique did not specify if they were soldiers or rebels.

The government said previously that loyal troops had recaptured the sugar port after a 10-hour flareup of violence in Cuba's slow-motion revolt.

Cool Weather Extends to Gulf

By United Press
The nation's early autumn weather extended as far south as the Gulf states today and forecasters said the cool air will linger at least another day.

Skies were generally fair and temperatures crisp throughout the region blanketed by cool air, although light showers occurred to the south in Florida and along the southeast Gulf Coast.

A 4,000-acre brush fire raged in the Feather River Canyon in the parched interior of California north of Sacramento. Aerial tankers helped battle the blaze which closed alternate U. S. 40 and threatened Western Pacific Railway tracks along the river.

'Bonus Baby' A-Blast Fired

ATOP ANGELS PEAK, Nev. (UP)—A "bonus baby" test shot dangling from a balloon 500 feet over Yucca Flat was triggered by the Atomic Energy Commission early today.

The detonation, code-named "Wheeler" and 17th full-scale nuclear experiment of the 1957 test series, banged sharply from its platform beneath the 67-foot diameter aerial carrier, sending rumbles off the ozonosphere to echo in the valleys and craggy mountains of the western desert. Blast-off time was 7:45 a. m. c. d. t.

The AEC, giving only sparse details, said the designed yield of the device was far below nominal.

Observers estimated it was less than five kilotons, or about the equivalent of 5,000 tons of TNT.

Instead of a gigantic mushroom cloud, "Wheeler" left only a small cotton ball-sized cloud. The cloud rose to 10,000 feet and then began to disperse within 10 minutes after the shot.

By comparison with previous shots, today's was about one-quarter the size of the blasts that levelled Hiroshima and Nagasaki at the end of World War II.

Six thousand persons died in the tornado and tidal wave that struck Galveston, Texas, in 1900.

The double ring ceremony was performed by the Rev. Joseph P. Byrd in the Southside Methodist church in Huntington before an altar banked with palms and foliage plants, tiered candelabra and vases of white gladioli, chrysanthemums and carnations, centered with a kneeling bride.

Mrs. Ann Maynard, sister of the bride, was matron of honor, and bridesmaids were Misses Kathleen Porter and Karen Clutter. The matron of honor wore a gown of maize yellow chiffon over taffeta, with an off-shoulder neckline banded with chiffon, and a two tier full gathered skirt. Panels fell from the back of the neckline to the hemline of the skirt. The bridesmaids wore identical dresses in mint green. All carried cascade bouquets of carnations.

Miss Kathy Jo Porter was flower girl, and Billy Carico, brother of the bride, was ring bearer. The taper lighters were Misses Janet Sue Bryant and Gloria Carico.

A reception was held in the church fellowship hall after the ceremony, with Miss Carol Walters, Miss Lois Truchowski and Miss Joan Kelly assisting.

When the couple left afterward for Norfolk, Va., where they will live, the bride wore a navy sheath dress with white accessories and a white carnation corsage.

The bride is a graduate of Huntington high school, where she was a member of the Glee club. Mr. Absher is an engineman, third class, in the Navy and is stationed in Norfolk.

WHAT GOES INTO A LOAF OF BREAD?

Much more than the simple ingredients that first come to mind. Besides these, there are the hard work and skill of the baker who mixed and cooked the dough, of the miller who made the flour, of the farmer who raised the wheat... Money goes into it, too. It takes a lot of that to keep bakeries, mills, and farms in operation; and all along the line in the "bread business" — as in American businesses of every other kind — low-cost bank credit is a much-used, often indispensable, ingredient.

The albatross, whose death brought ill fortune in Coleridge's "Ancient Mariner," is one of the most magnificent of flying creatures, having a wingspread of as much as 12 feet. It may soar for hours without apparent effort, and in southern seas the albatross is often the only living creature seen for days. In courtship, the birds cross bills and seem to fence like swordsmen, while uttering strange cries.

Thinking It Over

By Robert L. Dieffenbacher, D.D.
(Written for NEA Service)

This International Geophysical Year is becoming of interest to millions of people who are not scientists and who do not understand the scientific details of the work being done. The significant experiment of the year is the launching of a man-made baby moon into outer space.

We are concerned about this project because we are interested in the "unknown" and in the pro-

jection of man's presence into areas above the limits of his present influence. Many have a secret desire to travel far beyond the atmosphere of the world. They feel that in some way they will find themselves nearer in the Creator of the universe.

Our way to God will not be found in rocketing through space. Fellowship with God comes only through spiritual contact with the Almighty and with man's acceptance of this way of life.

Saxton Favored Over Miceli In Bout Tonight

WASHINGTON (AP) — Ex-welterweight champion Johnny Saxton, starting a comeback, is favored at 11-5 to beat left-upper-cutter Joe Miceli tonight for the third time at the new Capitol Arena.

Their 10 - rounder will be televised and broadcast nationally.

It's Saxton's first start since Feb. 22, when his attempt to recapture the 147 - pound crown resulted in a second-round knockout by champion Carmen Basilio at Cleveland.

New Yorker Johnny appeared "washed up" in February. He was staggered four times in the first round and dropped for the full count by a left hook in the second.

Because of the February kavo and his inactivity since then, Saxton no longer is ranked among the top 10 contenders. And Miceli of Brooklyn — an in-and-out — hasn't been up there for a long time.

Saxton, 27, is favored over Miceli, 28, because he outpointed the left - uppercut specialist in their two previous bouts, April 21, 1950 and May 27, 1953.

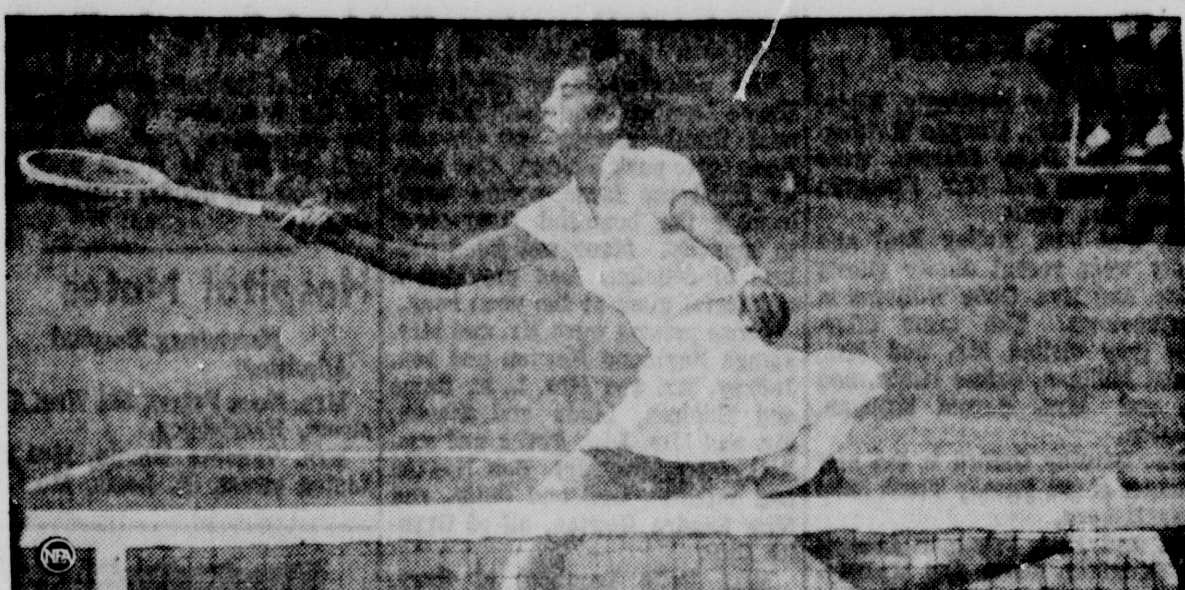

Score May Not Hurl Again This Season

CLEVELAND (AP) — Herb Score, brilliant young Cleveland Indians left hander, probably will not pitch again this season because his injured right eye has not healed as fast as expected.

Score's eye was struck by a line drive off the bat of Gil McDougald of the Yankees during a May 7 game.

Dr. Charles I. Thomas, an eye specialist, would not admit the strikeout artist is through for the season. But he said Thursday Score will begin a "new training program" designed to improve his depth perception.

The Lion of Lucerne is a memorial to the Swiss Guards who died defending Louis XVI from a mob during the French revolution.

ONE REASON WHY—Gangling Althea Gibson makes it tough on anybody trying to get one past her boarding house reach. The 29-year-old women's net champ has the size to return with power shots like this. A New Yorker, she's won all over the world.

Here Sept. 16-17-18

Harrisburg will be host to the district Junior High school softball tournament, to be played Sept. 16, 17 and 18. Eight teams are entered.

There will be four games played Monday, Sept. 16—New Haven vs. Dorrisville at 1:30, Norris City vs. Carrier Mills at 2:30, Harrisburg vs. Ridgeway at 3:30 and Raleigh vs. Muddy at 4:30.

Semifinal games will be played at 1:30 and 2:30 Sept. 17 and the championship game is listed for 1:30 Sept. 18.

Cardinals 6½ Games Out of First Following 10-1 Win Over Milwaukee Braves

By United Press

The St. Louis Cardinals climbed within 6½ games of Milwaukee today but the Braves seemed perfectly content to let them have their day in the sun now that Joe Adcock and Johnny Logan are back in action again, apparently ready for the final pennant drive.

Brushing off Thursday night's 10-1 defeat at the hands of the still-hopeful Cardinals, the Braves preferred to dwell instead on the fact that Adcock and Logan will be available for duty during a comforting 12-game home stand which begins against the last place Cubs tonight.

Adcock, the big first baseman who suffered a broken ankle on June 23, made his first appearance for the Braves since then Thursday night as a pinch hitter and although he grounded out, he indicated to manager Fred Haney he is ready to play.

Logan Plays Short

Logan, sidelined since Aug. 16th with a leg injury, filled in at short-stop in the late innings and also signified he can take his usual place in the regular lineup.

Those two encouraging signs took a lot of the sting out of the four-hitter Sam (Toothpick) Jones threw at the Braves Thursday night. Hobie Landrith and Alvin Dark each drove in three runs for the Cards while Del Ennis clouted his 19th homer with one on. Lew Burdette was the loser.

Brooklyn defeated the Phillies, 3-1, the Pirates licked the Giants, 4-2, and Cincinnati beat the Cubs, 4-1.

The Yankees increased their American League lead to 5 1-2 games with a 5-2 victory over the Red Sox while the Senators shut out the Orioles, 3-0, in the only

other game scheduled.

Roberts Drops 19th

Rube Walker put the Dodgers ahead to stay with a two-run double in the second inning off Robin Roberts, who dropped his 19th game. Carl Erskine, the winner, limited the Phils to one hit until the eighth when he tired and gave way to Ed Roebuck, who nailed down the victory.

Rookie Whammy Douglas of the Pirates posted his third victory although Roy Face was summoned from the bullpen to register the final out. Al Worthington started for the Giants, yielded Pittsburgh's first two runs and was charged with the loss.

Brooks Lawrence of the Redlegs held the Cubs to seven hits in gaining his 14th win. Don Hoak doubled for two runs off rookie Dick Drott in the second inning and Frank Robinson connected for his 24th homer in the third with the bases empty.

Grim Belts Homer

Relief pitcher Bob Grim of the Yankees won his own game when he hit a three-run homer in the ninth inning off Willard Nixon of the Red Sox. It was the first hit of the season for Grim and the second homer of his big league career.

Jackie Jensen gave Boston a 2-0 lead with a two-run homer off starter Bob Turley in the fourth and Nixon held that margin until the eighth when Gil McDougald tied the score with a bases-loaded single. The victory was Grim's 12th of the year.

Southpaw Chuck Stobbs held Baltimore to three hits and Roy Sievers blasted his 35th homer with one to pace Washington to victory. Sievers' homer put him one ahead of Mickey Mantle of the Yankees in that department.

Mike Wallace Hopes for Chaplin Interview

By WILLIAM EWALD
United Press Staff Correspondent
NEW YORK (AP)—The channel swim...

Mike Wallace takes off for Europe Sept. 23 to film interviews for his ABC-TV show. His first target, he hopes—Charlie Chaplin. If Mike fails to get back in time for his Sept. 29 show, ABC-TV will run a filmed Wallace talk with Frank Lloyd Wright that took place after Wallace's TV interview with the architect last Sunday.

Jill Corey gets to sing the No. 1 tune, "Tammy," on the "Your Hit Parade" opener Saturday night. Sheree North got the nod as Ernie Kovacs' co-star in the "Playhouse 90" show, "Topaze," on Sept. 26. The CBS-TV drama is wooing Katharine Cornell right now for a new Tad Mosel vehicle, "The Playroom," set for Oct. 10.

NBC-TV's new "Club Oasis," which will alternate with the new Polly Bergen show on Saturday nights, will feature one-shots by such marksmen as Jimmy Durante, Frank Sinatra, Van Johnson and Kay Starr. Lawyer Joseph Welch is whipping up a series on the law for NBC-TV's "Omibus."

Nick Boone, younger brother of Pat Boone, has signed a contract with Dot Records. They're changing his name to Nick Todd.

Birthday dep't: This past Wednesday marked the sixth anniversary of the first coast-to-coast TV show—it was a telecast from San Francisco of the Japanese Peace Treaty conference with Harry Tru-

man taking honors as the first man ever to appear on ocean-to-ocean video.

Jack Linkletter, 20, son of Art Linkletter, has set Dec. 21 as the date for his marriage to a Southern Cal co-ed Bobbi Hughes. Jack is studying TV writing at the university.

NBC-TV is clipping "Zoo Parade" from its regular schedule—it'll be programmed irregularly or just given the gate. Eddie Fisher will feature Debbie Reynolds and Mike Todd on his Oct. 1 NBC-TV opening show.

ABC-TV has gone "Guy" crazy this season with Guy Mitchell, Guy Madison of "Wild Bill Hickok" and Guy Williams of "Zorro." Marion Sweet, who played the "Dragon Lady" on radio for six years, will play a prim librarian in an upcoming Broadway show, "The Egghead."

Don Feddersen, producer of CBS-TV's "The Millionaire," has used his wife, Tido, on all 105 shows in the series thus far. She has played such roles as a scrub-woman, nurse, nun, waitress and sales girl without speaking a line. Tido gets \$19.43 for each walk-on.

Patti Page was telling the story this week of her first jazz-recording for Mercury Records. Mercury lined up 14 winners of the "Downbeat" jazz poll to back her on the session. Just before it started Patti noticed they were cutting cards. "It turned out," explained Patti, "that the low card had to carry the melody."

Priority List For Flu Vaccine Recommended

SPRINGFIELD — The state Health Department today issued a "recommended" priority list for persons to be vaccinated with Asian flu vaccine as it becomes available.

Health Director Dr. Roland R. Cross warned, however, that no legal priority system had been set up, and all vaccine was now going into commercial channels.

Highest priority, Cross said, should go to hospitals and nursing home personnel, physicians, nurses, pharmacists and public health workers.

Other groups should receive the vaccine in the following priority list, in the order named, under the department's recommendations:

Pregnant women and infants, chronic disease patients, essential workers in public education, firemen, policemen, transportation personnel, communication and public utility workers, and persons over 50 years of age.
